

## Appendices

<a href="#">Appendix A – Building Descriptors Table</a> [1]	Tabular summary and classification of building descriptors
<a href="#">Appendix B – Modeling Data</a> [2]	Modeling data and assumptions by building type and space use. For technical documentation on plug loads, click <a href="#">here</a> [3].
<a href="#">Appendix C – Schedules</a> [4]	Default and prescribed schedules of operation.
<a href="#">Appendix D – Construction Materials</a> [5]	Default construction materials library.
<a href="#">Appendix E – Software Tests</a> [6]	Spreadsheets and specifications for software tests.
<a href="#">Appendix F – Energy Costs</a> [7]	Documentation of the methodology used to develop the Chapter 5 energy costs.
Appendix G – XML Schema	The COMNET compliant XML schema specified in Chapter 4 and supported by the COMNET Portal.
<a href="#">Appendix H – Equipment Curves</a> [8]	Spreadsheet that summarizes and graphs the default equipment performance curves referenced in the Modeling Guidelines and Procedures.
